YAHUKIMO- In a heartwarming display of camaraderie, the Task Forces of Infantry Battalion 6 Marines, operating under the Indonesian Armed Forces Operational Command HABEMA, visited Kiribun Village in Yahukimo Regency, Papua Pegunungan Province, on Friday, January 24, 2025. This initiative, led by First Lieutenant Nico from the Logpon Post, was part of their routine security

patrol, enhanced with Social Communication (Komsos) efforts targeting students and teachers at SDN 1 Dekai, an elementary school in the area.

The mission, as emphasized by Task Forces Commander Lieutenant Colonel Rismanto Manurung, goes beyond security operations—it embodies the TNI's commitment to addressing the needs of local communities. This outreach aligns with the Indonesian Government's broader vision of accelerating welfare development in Papua.

During their visit, the Marines seamlessly blended their security duties with warm interactions, listening to updates from the students and teachers about the area's conditions. Residents expressed immense gratitude for the Soldiers' concern, fostering trust and cooperation between the TNI and the local community.

One of the residents, Soka Tabuni, shared heartfelt words: "Thank you, Commander Marines. God bless." This genuine expression captured the spirit of unity and appreciation between the community and the Task Forces. Such interactions not only boost morale but also reinforce the importance of harmonious relationships in maintaining peace and stability.

Major General Lucky Avianto, HABEMA's Commanding General, praised the initiative, stating, "The Marines Task Forces' effort to engage in Social Communication with the community reflects TNI's unwavering commitment to inclusive collaboration with stakeholders, supporting Papua's development acceleration."

This acknowledgment highlights the profound role of these efforts in fostering a secure and prosperous environment, instilling optimism for Papua's future. The synergy between the Marines and the Kiribun community serves as a shining example of the TNI's dedication to both its operational duties and its mission to uplift local communities.
